LETTER OF TRANSMITTAL

The Honorable Wallace G. Wilkinson
Governor of Kentucky
Frankfort, Kentucky

Sir:

I have the honor to submit for your approval the report of the Department of Mines and Minerals for the year ending December 31, 1988, this being the one hundred and ninth report of this Department.

Very respectfully yours,
Willard Stanley, Commissioner
Department of Mines and Minerals

Lexington, Kentucky

This copy has been prepared by the Department of Mines and Minerals and paid for from state funds.

INTRODUCTION

Kentucky coal production was 161,209,198 tons in 1988. The 1988 production of 161,209,198 tons was 16,050,225 tons less than the previous year of 177,259,423 tons. Kentucky placed second in coal production out-distanced by 2,379,002 tons. In 1988 over sixty-two million tons of coal were mined by surface operations while over ninety-nine million tons were mined underground.

The coal industry furnished direct employment for 44,322 miners.

Eleven miners were killed in Kentucky coal mine accidents in 1988.

The clay mining industry mined 554,320 tons in 1988. No fatal accidents occurred at clay mines during the year.

The following chart compares production of the various types of coal mines for the past two years:

TYPE MINE	PRODUCTION IN TONS 1988	1987		PER CENT CHANGE

DIRECTORY AND STATISTICS OF DEPARTMENT OF MINES AND MINERALS INSPECTION DISTRICTS

To facilitate the mine inspection duties of the Department, the coal fields have been divided into six inspection districts. A mine rescue station which serves as the district office is centrally located in each district. The Eastern Kentucky coal field is divided into five districts, with mine rescue stations located at Harlan, Hazard, London, Martin and Pikeville. An office at Madisonville serves the Western Kentucky coal field.

The operations for the district offices are directed from the office of the Commissioner located in Lexington. General staff and Lexington office personnel are as follows:

Willard Stanley, Commissioner
Margaret Caywood, Principal Assistant[1]
Curtis Miller, Chief Examiner[2]
Nancy Toombs, Executive Secretary
Eugene D. Attkisson, Attorney Chief
Sallie Hubbard, Legal Secretary[3]
Shirley McCollum, Legal Secretary[4]
Randy Donahue, Director of Administrative Services
Betty Bostick, Accountant
Connie Wolfe, Accountant
Joey Lucas, Administrative Specialist[5]
Susan Burke, Fiscal Officer
Karen Shillito, Accountant
Eula Witt, Office Supervisor
Georgia Staab, Chief Secretary
Karen Pierce, Principal Clerk[6]
Jean Cox, Principal Clerk
Susan Jarvis, Seasonal Clerk[7]
Delbert Robison, Printing Equipment Operator
Johnny Howard, Messenger (part-time)[8]
Geoffrey Belcher, Clerk (part-time)

The Directory and Statistics of Coal Mines contained in the following pages is separated by Inspection Districts and by Counties.

Code letters to classify mines are as follows:

URC	Underground Rail Coal
URWC	Underground Rail Water Coal
UTC	Underground Truck Coal
UWC	Underground Water Coal
ARC	Auger Rail Coal
ASRC	Auger Strip Rail Coal
ASTC	Auger Strip Truck Coal
ASWC	Auger Strip Water Coal
ATC	Auger Truck Coal
AWC	Auger Water Coal
SRC	Strip Rail Coal
STC	Strip Truck Coal
SWC	Strip Water Coal
SRCL	Strip Rail Clay
STCL	Strip Truck Clay
GSTC	Gob Strip Truck Coal

Notations made are as follows:

A	Abandoned
CC	Change of Company Name only
CO	Change of Operator and Company Name or Operator Name only
*	Estimated Tonnage

Production, employment and accident figures for River mines have been included in the totals for Truck mines for the purpose of compiling some statistical charts.

Many of the coal production figures of individual mines which appear herein have been estimated by the Department. This was necessary because the reports of the operators of those mines, particularly mines which became abandoned during 1988, were delinquent at the time of publication.

MINES AND MINERALS HARLAN DISTRICT
PERSONNEL —1988

HARLAN DISTRICT

The office and mine rescue station of the Harlan District is located in the old Margie Grand Theater Building, corner of Central and Second Streets, Harlan, Kentucky. The Harlan District is comprised of Bell and Harlan Counties.

There were 285 commercial coal mines in the Harlan District during 1988. One thousand one hundred and thirty-two inspections were conducted. Records show that 9 mines were abandoned in the district during the year 1988.

Personnel of the Harlan District:
Dewey Middleton, District Supervisor
James Gilbert, Mine Inspector
David Disney, Mine Inspector
Jesse Whitt, Mine Inspector
Roy Rhymer, Mine Inspector
Dale Halcomb, Mine Inspector
Sherrill Fouts, Mine Inspector
George Johnson, Mine Inspector[1]
Margaret Howard, Office Supervisor
Julie Slusher Middleton, Secretary, Pr.
Patricia Long Middleton, Secretary, Pr.
Lora Murphy, Seasonal Clerk[2]

MINE FIRES AND IGNITIONS IN KENTUCKY

JANUARY 13, 1988, MINE NO. 37, ARCH OF KENTUCKY, INC., Harlan, Harlan County. An ignition of methane occurred in the main track heading continuous miner section in the face of No. 1 left, 28,340 feet underground while coal was being mined. Sparks from the miner cutter bits in the presence of CH4 caused the ignition. A fire extinguisher was used to extinguish the fire. There were no personal injuries.

MAY 13, 1988, SINCLAIR 285, PEABODY COAL COMPANY, Drakesboro, Muhlenberg County. A fire occurred on the main north west belt at the number six (6) crosscut at a confined area where an arch support had previously been erected to support an adverse roof. The cribs and coal in the confined area had apparently caught fire. Foam and water were used to extinguish the fire. There were no personal injuries.

JUNE 21, 1988, PROVIDENCE NO. 1, ISLAND CREEK COAL COMPANY, Madisonville, Hopkins County. A fire occurred in the No. 1 unit, main east entries in the left crosscut in the No. 2, entry. Heat from the shot apparently caused the dust on top of the freshly shot fall of coal to catch on fire. Water was used to extinguish the fire. There were no personal injuries.

JUNE 23, 1988, GREEN RIVER NO. 9, GREEN RIVER COAL COMPANY INC., Anton, Hopkins County. An apparent ignition of methane occurred in the entries on No. 3 Unit, No. 2 right crosscut. Source of ignition is unknown. One miner was burned on his face, arm and hands. Water was used to extinguish the fire.

JULY 20, 1988, MINE NO. 2, CANADA COAL COMPANY INC., Kimper, Pike County. A fire was discovered at 002 section mains in the No. 4 entry 250 feet inby spad no. 5652. Fire was controlled by water and the erection of seals. Cause of ignition is unknown. There were no personal injuries.

SEPTEMBER 22, 1988, WILLIAM STATION MINE, PYRO MINING COMPANY, Sturgis, Union County. An ignition occurred when the shotfirer shot the face of No. 2 entry, igniting gas or coal dust and causing an explosion to occur. Three miners were injured with burns to their arms, face and hands. Water and fire extinguishers were used to extinguish the fire.

NOVEMBER 14, 1988, DARBY MINE, JERICOL MINING, INC., Holmes Mill, Harlan County. A fire occurred on the right rib of the No. 4 entry inby the 3rd crosscut from the face entry. Water was used to extinguish the fire and ventilation curtains were hung to redirect the smoke from the section. The fire area was then supported with cribs. There were no personal injuries.

TRAINING AND EDUCATION

A full time Training and Education Program was established in 1971, with a Federal Grant from the Mine Enforcement and Safety Administration, now known as the Mine Safety, and Health Administration (MSHA). This is a very effective program. It is staffed with well qualified instructors; eight (8) mining instructors and four (4) electrical instructors, who are stationed in the six district offices and mine rescue stations throughout Kentucky. As a result of several instructors retiring, we completed 1988 with only seven (7) mining instructors and three (3) electrical instructors.

The following list shows the type of certificates issued and the number of men/women involved in the different safety courses conducted by this Division in 1988. This includes both organized classroom work and field work.

CERTIFICATES ISSUED

Underground Mine Foreman	224
Surface Mine Foreman	265
Inspector	33
Principles of Accident Prevention	2,047
Belt Examiner	128

Coal Mine Health & Safety Act of 1969-Part 75 Underground	31
Mine Electrical Hoistman	78
Instruments and Apparatus	4,704
Shot Firer	753
Emergency Medical Technician (EMT)	598
Underground Inexperienced Miner Training Program 48-Hours	388
Underground Retraining 16-Hours	3,456
Surface Initial Program 24-Hours	200
Surface Retraining 8-Hours	745

In order to assure that all Kentucky underground coal and clay miners and surface and underground coal and clay mine electrical workers are receiving quality training, the Kentucky Department of Mines and Minerals deems it necessary to certify all instructors of such training (KRS 351.120). This certification program was initiated in February of 1988, and as of December 31, 1988, 255 underground Mining Instructors and 44 Electrical Instructors successfully passed all phases of the examinations and were certified by the Department of Mines and Minerals.

MINER TRAINING, EDUCATION AND CERTIFICATION DIVISION

The Board of Miner Training, Education and Certification as provided by Chapter 351, Paragraph 105, Kentucky Revised Statutes, was composed of the following members in 1988.

Willard Stanley ..... Chairman
Troy Ed Chafin ..... Mine Member ..... Eastern Kentucky
Raymond Ashby ..... Operator Member ..... Western Kentucky[1]
Clifton Alexander ..... Operator Member ..... Western Kentucky[2]
James Childers ..... Operator Member ..... Eastern Kentucky[3]
Richard Salyers ..... Operator Member ..... Eastern Kentucky[4]
Lewis Chaney ..... Mine Member ..... Western Kentucky
Richard H. Litchfield ..... Mine Member ..... Western Kentucky
William E. Clayton, Director, Miner Training, Education and Certification Division ..... Non-Voting Member[5]
Carl R. Ankrom, Director, Miner Training, Education and Certification Division ..... Non-Voting Member[6]

Pursuant to KRS 351.106 Underground Miner Training and Certification Regulations were implemented in October 1977 with William E. Clayton appointed as Director of this division. He served in this capacity until he retired on October 31, 1988. December 16, 1988, Carl Ankrom was appointed to the position of director of the Miner Training, Education and Certification Division. During 1978 the required 48-hour inexperienced miner's program was prepared and the first classes were taught in May 1978. Through December 31, 1988, 44,251 persons have been issued Temporary Inexperienced Miner's Work Permits; of this number, 2,309 were issued during 1988.

After the Underground Miner Training and Certification Regulations were implemented in October 1977, the Board of Miner Training, Education and Certification established a date of November 1, 1978, as the date all persons employed in underground mines should meet this requirement. As of December 31, 1988, 35,810 persons have been issued underground miners certificates. Of this total, 400 are female miners. As of December 31, 1988, 20,707 of this number were current in their certification.

Uniform two-day examinations for Mine Foremen and Inspectors were scheduled by the Board to meet the demand whenever it arose. Examinations were held in the Department offices in Lexington and at various localities throughout the coal fields, whenever the number of applicants made it justifiable. Mr. Curtis Miller continued to serve as Chief Examiner throughout the Commonwealth, until his retirement, July 31, 1988. Mr. William J. Morgan assumed this responsibility after that date and continues to serve in this capacity.

Examinations were multiple choice in character. Applicants were given written examinations on the following subjects: Mine Law; First Aid; Ventilation; Apparatus and Electricity; Fires and Explosives; General Mining Practices and Gases. Each applicant was tested on his/her ability to detect methane with a flame safety lamp, and use of an anemometer in the calculation of the rate of air current flow. The miner was further required to prove his/her knowledge of safe mining practices in an interview with the Examiner, and to indicate safe and practical methods of ventilation on a typical mine map.

A list of those who successfully completed the required examination for foremen and inspectors is shown on the following pages:

WILLIAM JOE MORGAN
MINE SAFETY ANALYSIS DIVISION

MINE SAFETY ANALYSIS DIVISION

The Mine Safety Analysis Division consists of one Director, one Assistant Director and thirty-six field personnel. The primary responsibility of the safety analyst is to prevent underground mine accidents and fatalities by observing and evaluating the work habits of persons involved in the direct production of coal and to contact, advise, and assist these persons on a one-to-one basis correcting their unsafe or potentially hazardous actions. In 1988 they completed 378,526 personal contacts and observations and conducted 552 dust sample reports.

The program has served the industry well as evidenced by the decrease of underground fatalities since its inception. Trends continue to show improvement in underground mine safety. There were seven (7) underground mining fatalities in 1988. This was down from the twenty (20) suffered in 1987.

The future goals of the Mine Safety Analysis program, as are the goals of the Kentucky Department of Mines and Minerals, are to further reduce all mining accidents by promoting and maintaining safety standards in the state's coal mines thus preserving the Kentucky mining industry's most valuable resource, *THE MINER.*

EXPLOSIVES AND BLASTING DIVISION

During 1988, 169 new General Blaster's Licenses were issued, and 3,132 General Licenses were renewed. Also, 46 new Limited Licenses were issued and 271 Limited Licenses were renewed. There were 220 General Examinations and 62 Limited Examinations given. To obtain a General or Limited Blaster's License, the applicant must pass the prescribed written examination and must have two years of practical blasting experience. Twelve courses were offered at various locations around the state and were attended by 186 people. In 1988, 155 Blaster Certification Examinations were administered under the Memorandum of Agreement with the Cabinet for Natural Resources and Environmental Protection as mandated by the Federal Office of Surface Mining.

The Division of Explosives and Blasting continued its program of inspection, enforcement, education, and licensing of blasters in 1988. A total of 215 new blaster's licenses were issued during the calendar year 1988. Of these 215 new licenses, 169 were general blaster's licenses, and 46 were limited blaster's licenses. As of December 31, 1988, there were 3,618 individuals holding current and valid Kentucky blaster's licenses. Of these 3,301 were general licenses, and 317 were limited licenses.

During 1988, well over 840 million pounds of explosives were detonated in Kentucky. This quantity represents 20% of the total explosives used in the entire United States.

The division conducted twelve blaster's training courses throughout the Commonwealth in 1988. These classes were attended by 186 people, who were primarily applicants for blaster's licenses. The locations and number of attendees in these courses were as follows:

Location No.	No. Attending
Barbourville	16
Bowling Green	14
Elizabethtown	10
Harlan	9
Hazard	23
Hazard	11
Lexington	11
Lexington	10
Louisville	30
Madisonville	19
Maysville	15
Pikeville	18

These courses consist of thirty-six hours of instruction covering all aspects of explosives use. The purpose of the course is to raise the competency level of the blasters in the field as well as assist those preparing to take the blaster's examination. The public is better protected and the blaster's work environment is safer when the blaster's ability is enhanced through training.

The Explosives and Blasting inspectors answer 100% of all public complaints received by this division. These complaints primarily concern ground vibrations, noise, flyrock, and various other adverse effects of blasting. The inspector's investigation of the complaints involves inspection of the operation generating the complaint and extensive seismic monitoring. During 1988, the division made 266 such investigations of public complaints and used the seismograph 148 times in order to resolve these complaints.

In addition, the inspectors continue to make routine checks of all blasting operations to ensure compliance with the laws and regulations governing the use of explosives. The division inspects not only those companies using explosives, but also companies engaged in the manufacture, sale, storage, and transportation of explosives. Thirty-seven companies engaged in the sale or distribution of explosives in the Commonwealth registered with the division in 1988.

During the year the division has participated in a number of seminars sponsored by other state agencies and educational institutions. It has been the aim to use every opportunity for education of the public and training of blasters in the safe use and associated hazards of explosives.

DIVISION PROCEDURES

In an effort to streamline the permit issuance and record management procedures, the Division of Oil and Gas has converted to a computerized system. We are currently on-line with the Kentucky Geological Survey using the VAX/VMS Operating System (VAX/8550) for our data processing needs.

We are developing a well history that can be utilized daily. At present, there are approximately 38,000 wells stored on-line for which we have data relative to the permit, operator, well location, pertinent dates and well completion.

At the close of 1988, the Oil and Gas Division had 8 field inspectors, 2 field supervisors and 7 employees on its administrative staff.

Available to the public is a weekly publication of permits issued identifying the permit number, operator name, farm name, county, carter coordinates, and target formation. This publication may be obtained by an annual subscription of forty (40) dollars. We are, however, unable to furnish back issues of the publication.

PERMITTING

The four (4) counties receiving the most permits in 1988, in descending order are as follows: Warren, Whitley, Pulaski and Muhlenberg. These counties accounted for 29% of the permits isssued.
